Dear Doctor Macco:

6  
This is to let you know (Mr. Hernandez) underwent an extensive study, in this medical center, and was advised to have surgery. He underwent surgery for his epilepsy May 6, 1964.

We have been aware of the fact, in spite of his surgery, that this man is still suffering with epileptic seizures. In our opinion, these seizures may remain indefinitely not completely controlled. He needs to take medication in a continuous manner.

He probably will be considerably limited in his possibilities of achieving a permanent occupation.

Sincerely,

  
Jose A. Picaza, M.D.
